

2025 Community Guide

Thank you for your support!

Your community's school district
has partnered with Kids Read Now
to eliminate the summer reading slide.

Kids Read Now mails 9 books—free to students—over the summer! Each book has a 3-digit code on the inside of the front cover and parents are encouraged to report the books once they're read. Another book is mailed directly to the student's home every 8-10 days!

Me and My Dragon

1. The boy wanted a dragon for a pet. If you could have any pet you wanted, what would you have? Write a story about it. Share your story with an adult.
2. The boy wants to take care of his dragon. Think of another story where someone is a caregiver. How are they like the boy? How are they different? Talk about it with an adult.
3. If dragons were real, they would be wild. Why is it hard to have a wild animal as a pet? Talk about it with an adult.
4. The boy wanted an unusual pet. What other unusual animal could he have wished for? Make a list. Choose one of those animals. Write a story about how he would have cared for it. Share your story with an adult.

How can you help?

- Help students read when they visit! Read books to the students, let them read the books to you, and ensure they have a quiet reading area available.
- Discuss the Discovery Sheet reading activities in each Kids Read Now book.
- Help students report book codes by reminding parents to report in the Kids Read Now Parent Portal or by calling 877.536.0130.

Books, Discovery Sheets, and MORE!

You will find a Discovery Sheet stickered inside the front cover of each book with four activities. It is important that you discuss these activities with the student— it helps them to think about and understand what they read. In the top right corner, you will find the book's unique three-digit code, which is what you'll report to us to let us know which book the student read. We'll contact parents every week as a reminder to report book codes. For additional content, scan the QR code at the bottom to DISCOVER MORE on topics related to each book.
